

THE BILLIARDS ROOM

SNOOKER RULES FOR BEGINNERS

7 Continue with red-colour-red-colour until all reds are in the pockets.

When all Red Balls are gone:

8. Balls are pocketed in this order -
Yellow, Green, Brown, Blue, Pink, Black.
They stay in the pocket.

FOUL RULES

1 Once struck, cue ball must make contact with ball ON first otherwise, foul is committed

2 If your cue ball does not hit anything on the table, your opponent may choose to take the shot or turn the table back to you

3 If you commit a foul and your opponent is snookered on all balls ON, he may be allowed to select a free ball (any ball on the table). The free ball, for this shot only, becomes another ball ON and has the same value and is re-spotted if potted.

4 If your cue ball first hits a ball other than the ball ON, then the penalty is the value of the ball struck or 4 points, whichever is greater.

5 If you pot a ball other than the ball ON, then you do NOT score the value of the ball ON but your opponent scores the value of the ball pocketed.

6 If you touch any ball on the table at any time, then the penalty is the value of the ball touched or 4 points, whichever is greater.

THE GAME ENDS WHEN

1 A player resigns because there are not enough balls on the table to make up for the opponent's score OR he does not have enough options to execute a good snooker to force the opponent into a foul.

2. All reds and ball colours are pocketed.

SNOOKER RULES FOR BEGINNERS

TABLE AT START OF GAME:

To remember the order of the colours in the "D" area, think of "G"od "B"less "Y"ou for Green, Brown and Yellow as you look at them from the end of the table.

BALL TERMINOLOGY

Cue ball

The white ball, the only ball that you may hit with the cue.

Red

Red in colour, there are 15 at the start of the game

Colour

One of the six balls that are neither red nor white.

BALL VALUES:

● Red - 1, ● Yellow - 2, ● Green - 3

● Brown - 4, ● Blue - 5, ● Pink - 6, ● Black - 7

SNOOKER TERMINOLOGY

Pot - to put a ball into a pocket (and have it stay there)

Foul - to do something against the rules

Snookered - to be unable to roll the cue ball in a straight line and hit the ball chosen.

Ball ON - the ball you intend to hit with the cue ball.

FUNDAMENTALS

1 You hit the cue ball so that it, in turn, hits another ball and hopefully pots it.

2 You must not pot the cue ball

When there are still red balls on the table:

3 Your first shot on every turn must be to hit a red with the cue ball.

4 If you pot that red (red is the ball ON), then you score 1 point and your next shot may be on any of the colours (be sure to say which one you have chosen). The red stays in the pocket.

5 If you pot that colour (which is now the ball ON), then you score the value of the colour and your next shot must be a red. The colour goes back on its own spot. If it doesn't fit on its spot, then it goes on the highest valued spot available.

6 If you fail to pot, or if you foul, then your turn is ended and your opponent gets to try.
